

For the sake of the environment.

## HIGHLIGHT

Indoor cleaning has to be done and unhealthy exhaust fumes should be avoided? Stables with sensitive, frightening animals need to be cleaned? For these cases the Cleanmeleon 2 Electric is the perfect alternative.

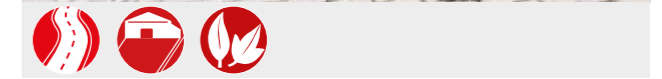

### Technical data

	Cleanmeleon 2 Electric
Drive	battery operated, drive and lighting batteries 4 x 12V, 80 Ah
Charger	Electronic Charger 48V, Electronic shutdown for battery saving (overcharge protection)
Power	1100 watts (1.1 kW), 48 volts
Duration of use	120 min.
Speed	8 km / h forward, 5 km / h backwards
Weight	approx. 225 kg (high pulling force), additional weights possible according to requirements
Size	L: 1800 mm, W: 770 mm, H: 1070 mm
Chassis	5 mm galvanized
Tires	AS tires 16 x 6.50-8
Lifting of attaching machines	via pedal
Mounting options	Radial brush, axial sweeper, scraper, pushing shield, snow plough

(Technical data is approximate and non-binding.)

- sturdy and stable bristles for moving large quantities of debris
- direction of rotation of the brush: right-left rotation
- easy change of bristle set

- overhead sweeping principle with oscillating suspended sweeping roller
- leading roll-off lip pushes the dirt to the brush
- expandable with a side brush for sweeping flush to the wall

- working width: 800 or 900 mm
- C-shaped front doesn't let mess drift away
- also additional side brush available for cleaning the lying areas

- perfect for narrow passages
- working width is flexible adjustable from 80 to 160 cm via perforated strip

- working width: 1600 mm with robust protective edge
- swiveling left and right
- suitable for dirt and snow sliding
